

DMP arranged an article writing competition among the students of the 6th and 7th batch to celebrate "World Population Day"

World Population Day 2021 is observed every year on July 11. The main purpose of this day is to draw attention to the issues arising out of the rising population across the globe. This year, the theme of World Population Day 2021 was **'the impact of the Covid-19 pandemic on fertility'**.

Unlike every year DMP celebrated the day by arranging an article writing competition among the students of the 6th and 7th batch. DMP aimed to involve the students by searching information on the theme and acquire knowledge on the article. Interested students wrote articles on **'the impact of the Covid-19 pandemic on fertility'**. Most of the students have participated in the article writing competition. Finally, seven articles from seven academic sites got selected for the final round. The best seven articles were selected based on the focus on the topic, using of rich and specific information, sequentially organised write up and using accurate language. Among the selected seven articles best three articles were rewarded.
