

Position: Field Research Assistant (FRA)

The BRAC James P Grant School of Public Health (BRAC JPGSPH) at BRAC University was established in 2004 as an educational and research institution focusing on the integral areas of teaching, research, and services. The goal of the School is not only to impart knowledge but also to act as a centre of excellence in knowledge creation through research and training that connects with practice. Centre for Non-communicable diseases and nutrition (CNCDN), BRAC James P Grant School of Public health, BRAC University is implementing a baseline survey titled **‘Impact evaluation of the project titled ‘Implementation of the World Health Organization’s Framework for Working with Individuals, Families, and Communities (IFC) to Improve Maternal and Newborn Health in Bangladesh’ (2021-2024)’** funded by BRAC Health Nutrition and Population Programme (HNPP), BRAC, Bangladesh and Enfants du Monde, Switzerland. The primary objective of the study is to measure the effect of the package of World health Organization Individuals, Families and Community (WHO IFC) interventions on maternal neonatal and child health (MNCH) awareness, capacities, and practices of women, husbands, and families.

The study will recruit Field Research Assistants (FRAs) to supervise the overall activity of the data collection team in addition to collecting data at field level. Details are stated below:
